Introducción

El desarrollo adecuado de una economía saludable, supone el manejo de una serie de variables importantes, complejas y críticas que no se pueden sobre-simplificar, ni tomar de forma liviana. Esto es así, porque realizar un manejo inadecuado de las mismas, tendría nefastas consecuencias en la competitividad del país y en las oportunidades que se deben hilvanar en una democracia saludable.

Es por esta razón que describimos someramente estos componentes que configuran el mapa de desarrollo de un Puerto Rico próspero para todos. A continuación los enumeramos:

1. Crecimiento Económico – Fundamental para la creación de la riqueza y las oportunidades que todos los constituyentes de nuestro sistema social esperan de la gestión inteligente de desarrollo social.
2. Eficiencia Gubernamental – En la medida que se crean oportunidades y espacios de inclusividad, entonces el rol del gobierno se transforma en uno de facilitar el desarrollo de la estructura normativa, legal y de orden que permita la actividad

transaccional, la creación de valor, la innovación social y la igualdad ciudadana. En el siglo XXI el rol del gobierno cobra mayor relieve porque se necesita de una estructura organizativa que permita la continuidad del sistema más allá de premisas convencionales, y que no desenfoque la gestión de pensar, coordinar y cristalizar el desarrollo del bien común.

3. Eficiencia Empresarial – El fruto de la política pública inteligente tiene el efecto de crear una plataforma, para que las instituciones puedan enfrascarse en el desarrollo de actividades de valor añadido, para los diferentes sectores industriales que componen el quehacer de los negocios. La Oficina del Comisionado de Seguros juega un rol fundamental para fortalecer toda la actividad de manejo de riesgo y del mercadeo de soluciones que permitan el acometer el mismo. Desde la perspectiva en que este informe se prepara, es necesario enfatizar el que se establezcan propuestas de valor al mercado que enaltezcan la calidad y el estándar de vida de la sociedad. Por tanto, el resultado de la gestión del Comisionado de Seguros es dramáticamente importante en los resultados que se producen para la gestión de ensanchar los

sectores industriales, las oportunidades de empleo y el activar la fibra económica.

4. Infraestructura – Para que toda la promesa de sectores industriales portentosos se materialice es fundamental el poder diseminar una infraestructura que permita el fluir de bienes, de servicios y de actividades transaccionales que tengan el efecto de solucionar problemas y de satisfacer necesidades. Tanto la infraestructura física, como la de salud, la tecnológica, la educativa y la de investigaciones, entre otras, suponen una piedra de ángulo social que viabiliza actividades que de otra forma no se podrían realizar. En gran medida el manejo del riesgo y la plataforma de seguros del país, han servido como herramientas fundamentales para que las actividades relacionadas con el fortalecimiento de la infraestructura se convirtieran en una realidad.
5. Cohesión Social – Finalmente, el mantenimiento de una ética social y de la virtud cívica suponen el combustible para que se pueda desarrollar una vida productiva, de alto rendimiento y de fortalecimiento para las próximas generaciones. Si se desarrolla una sociedad en la que se mantengan los valores de

la sana convivencia, de la unidad de propósito y del apoyo entre todos nosotros, será posible crear una sociedad indestructible en donde todos puedan cosechar éxitos y salir a ser la mejor expresión de sí mismos todos los días.

Sobre la Economía de Puerto Rico

Es importante mencionar que el desafío que esta administración le ha tocado encarar, ha sido el más complejo, el más apremiante y el de mayor dificultad financiera que nuestra sociedad ha manejado en su historia.

Durante el proceso de desplegar política pública de vanguardia, la actividad gubernamental ha tenido que encarar algunos de los siguientes desafíos:

- **Un índice de inflación significativo**, matizado por la sincronización de incrementos en los costos de materias primas, de alimentos, de combustibles y del efecto en cascada que los mismos han tenido en la cadena de valor.
- **Una actividad económica estancada** que tuvo y tiene el efecto de dificultar los procesos de recaudos del aparato

gubernamental y de afectar significativamente el flujo de caja necesario para financiar las operaciones diarias de las agencias e instituciones gubernamentales.

- **La restricción de acceso al crédito** en los inicios de este cuatrienio, creó condiciones que indujeron decisiones duras, difíciles e impactantes para la conciencia social sobre los que se esperaba que fuera la gestión gubernamental y la dura realidad de lo que la misma realmente representa en el siglo XXI.
- **El debilitamiento de sectores industriales principales** y su efecto en la actividad económica. Por ejemplo: el sector de la construcción se redujo casi a la mitad[1] en un periodo de tres años (2004-2006) creando un vacío de consumo de materias primas, financiamiento, fianzas y seguros de propiedad y contingencia entre otros. Esto ha erosionado la capacidad competitiva del país y requiere de esfuerzos heroicos por los próximos años si es que se aspira a cerrar el terreno perdido durante esta recesión económica.

- El debilitamiento de la fibra social, intensifica la percepción de que estamos en una situación que no tiene salida.

Aunque algunos profetas del desastre, se esfuerzan en torpedear la gestión que se realiza para sacudir al país del paradigma de lamento crónico y de pesimismo toxico, es importante señalar que comienzan a despuntar rayos de optimismo en muchas partes del mundo, y sentimos algunos de sus efectos en la actividad que se lleva a cabo dentro de la industria de seguros.

Es por esta razón que anticipamos una recuperación de la actividad económica para el próximo año fiscal y esperamos que esto se traduzca en una recuperación de la confianza del consumidor y de la actividad empresarial en general.

Sobre la Industria de Seguros

La industria de seguros en Puerto Rico cumple una importante función de gerenciar de una manera sistemática y sustentable la exposición y la vulnerabilidad de las instituciones y los ciudadanos a la pérdida, y por consiguiente a enfrentar de una manera inteligente el riesgo inherente al drama social y productivo en que se vive.

Por tal motivo, la industria de seguros en el País ha hecho posible que los ciudadanos y las instituciones transiten de la necesidad de entender el manejo del riesgo, y por ende la necesidad de gozar de niveles razonables de seguridad en sus aspectos conceptuales hacia una experiencia práctica de apoyo, seguridad y respuesta en los momentos urgentes cuando ha sido imperativo y necesario.

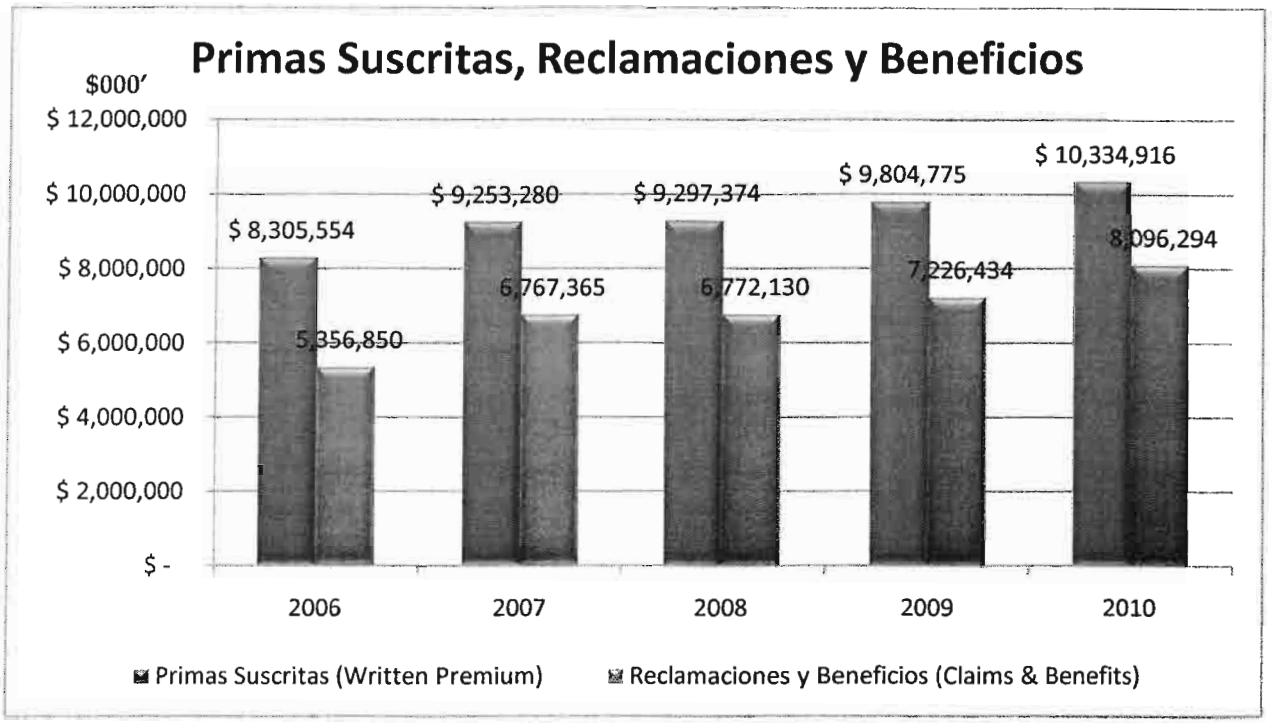
El punto es que la industria de seguros en la Isla significa un comprensivo conglomerado de organizaciones al servicio de enfrentar y administrar riesgo en una multiplicidad de manifestaciones y expresiones. El mensaje positivo de la industria de seguros al País es que duerman tranquilos que su industria de seguros está creciendo, produciendo y manejando riesgos para ustedes.

La industria de seguros es el tratamiento y la respuesta articulada de la sociedad al desafío de confrontar el riesgo y el potencial de inestabilidad en una diversidad de dimensiones. En este sentido, a mayor crecimiento, desarrollo y protagonismo de la industria en su capacidad de manejar el riesgo a través de productos y servicios, según dicho riesgo ha sido identificado, mayor será la capacidad de administrar efectivamente los vaivenes en la frecuencia y la severidad de las pérdidas.

Un rol importante de la industria de seguros en Puerto Rico ha sido la mitigación de pérdidas financiera para individuos y sectores socioeconómicos, lo que se traduce en el financiamiento y respaldo directo de la reducción, prevención y manejo de pérdidas con la intervención de las compañías de seguros que conforman la industria.

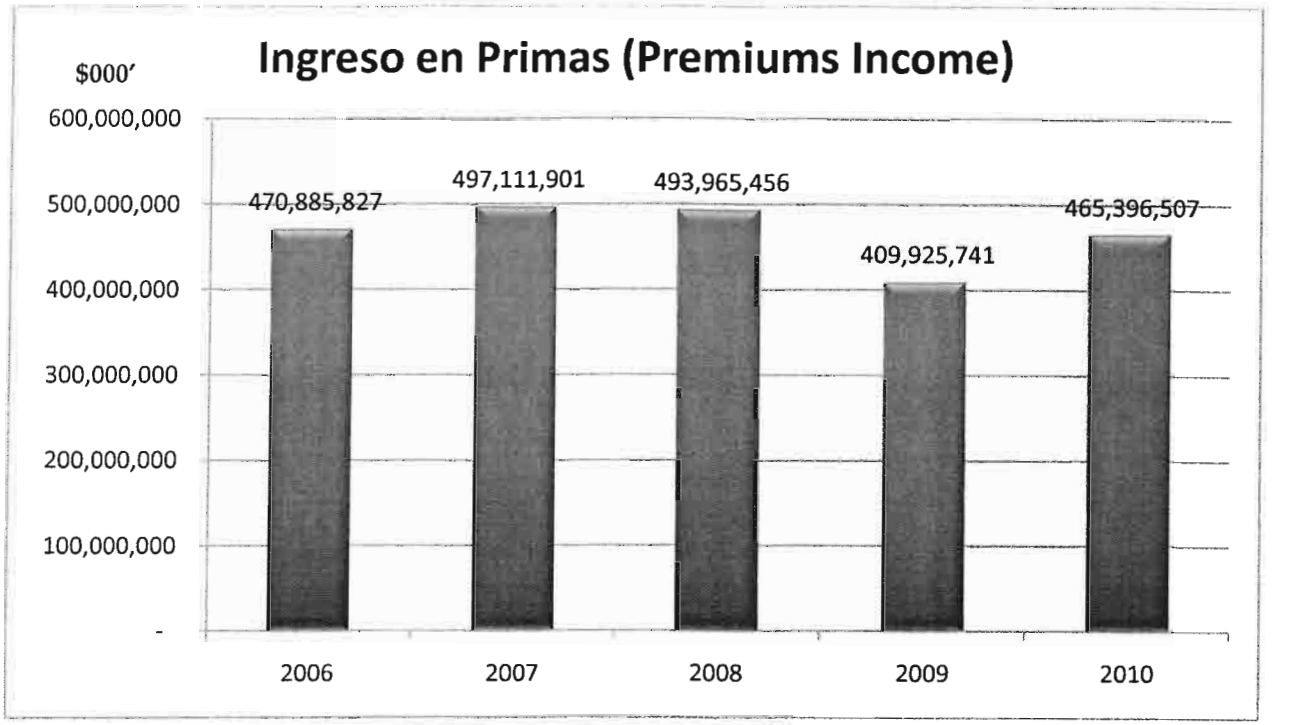
Es por esto que la industria de seguros de Puerto Rico se caracteriza por ser una vibrante, activa y de alta penetración en el grupo consumidor puertorriqueño. A modo de evidenciar todo lo antes expuesto, es importante resaltar que en el año 2010 el gasto per cápita en seguros (incluyendo todas las líneas de negocio) representa $2,791.00 dólares.

En la siguiente gráfica podemos documentar el volumen total de primas suscritas, reclamaciones y beneficios para el quinquenio comprendido entre el 2006 y el 2010.



Las cifras antes descritas ubican a Puerto Rico entre los primeros mercados de seguros del mundo, cuando se correlaciona el tamaño de la población y el volumen total de la industria.

Más aun, cuando se analiza detenidamente el ingreso en primas, es evidente que la gestión del ente regulador de seguro, en conjunto con la sofisticación gerencial de los equipos de trabajo en las compañías de seguros, activan resultados concretos, visibles y dramáticos.



Para demostrar la diversidad de nuestra industria de seguros es menester analizar la siguiente gráfica:

En la misma podemos apreciar el vigor y la diversidad de una industria que ha crecido en sofisticación y capacidad de valor añadido, existen al cierre del 2010 un total de cuatrocientas ocho (408) compañías de seguros autorizadas o elegibles líneas excedentes.

Este nutrido grupo de aseguradores se desglosa en el detalle de cada una de las líneas de negocios que muestran la siguiente tabla:

Entidad	Del País	Extranjeros	Líneas Excedentes	Total
Aseguradores de Vida e Incapacidad	17	99	1	**117**
Aseguradores de Propiedad	20	134	76	**230**
Organizaciones de Servicios de Salud	14	0	0	**14**
Reaseguradores	1	46	0	**47**
Total	**52**	**279**	**77**	**408**

Es importante resaltar que sólo con una gestión vigorosa, ágil y flexible la Oficina del Comisionado de Seguros puede tener un impacto constructivo y edificante en la dinámica del fortalecimiento de la industria.

La naturaleza del rol del Comisionado de Seguros es en esencia híbrida: por un lado tiene la responsabilidad de monitorear, reglamentar y auditar a las compañías participantes de la actividad de valor añadido, y

por el otro lado, es promotor, diseñador y socio de negocios de la industria que enaltece la marca de la industria y comunica al mundo las actividades de valor añadido que ocurren dentro de la misma.

Las próximas graficas resumen la configuración de las diferentes líneas de negocios y la distribución entre compañías locales, extranjeras y de líneas excedentes.

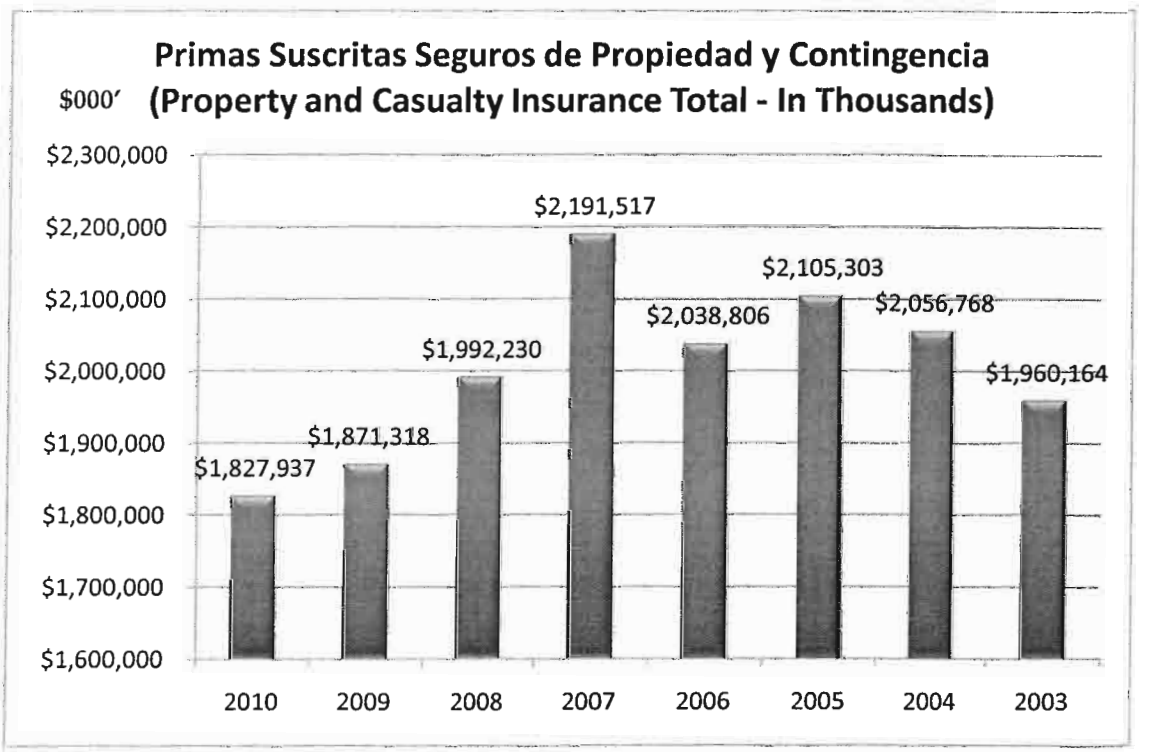
Propiedad y Contingencia

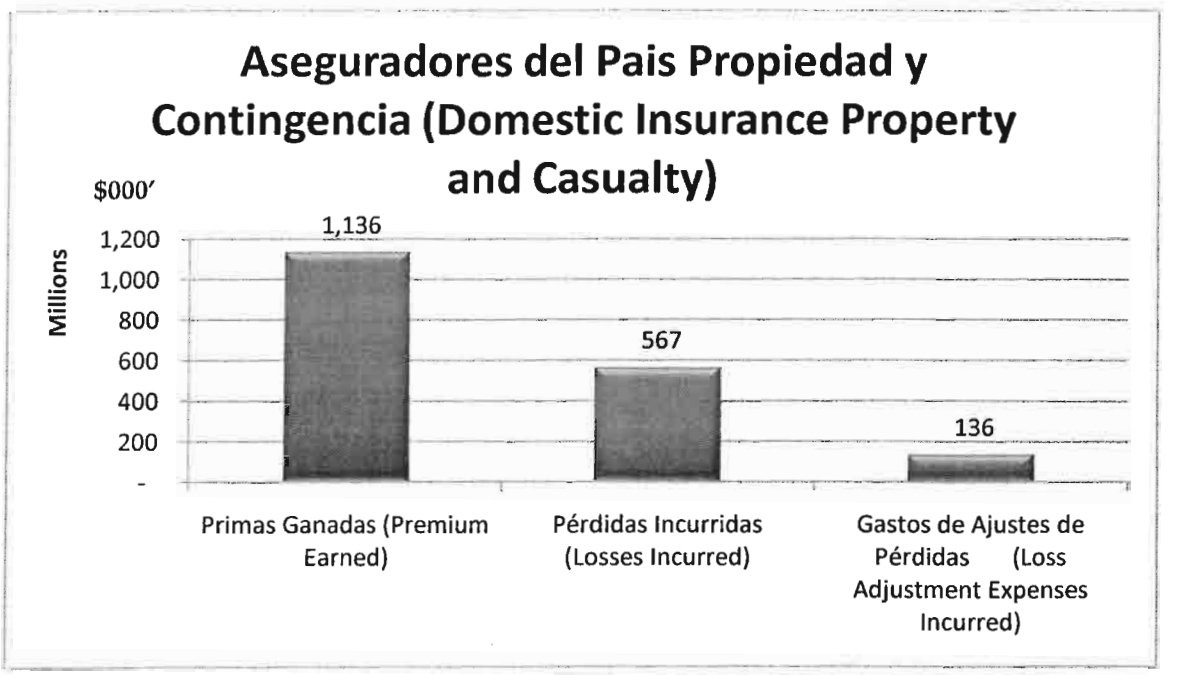
Los seguros de propiedad y contingencia sirven de base para que se puedan viabilizar actividades de intercambio comercial, desarrollo de infraestructura y manejo de riesgos personales y comerciales, entre otros, que permiten que la vida social transcurra dentro de márgenes de normalidad en el manejo de riesgos.

En la siguiente gráfica, se integran el total de primas suscritas para el agregado de primas suscritas en seguros de propiedad y contingencia desde el 2003-2010.:



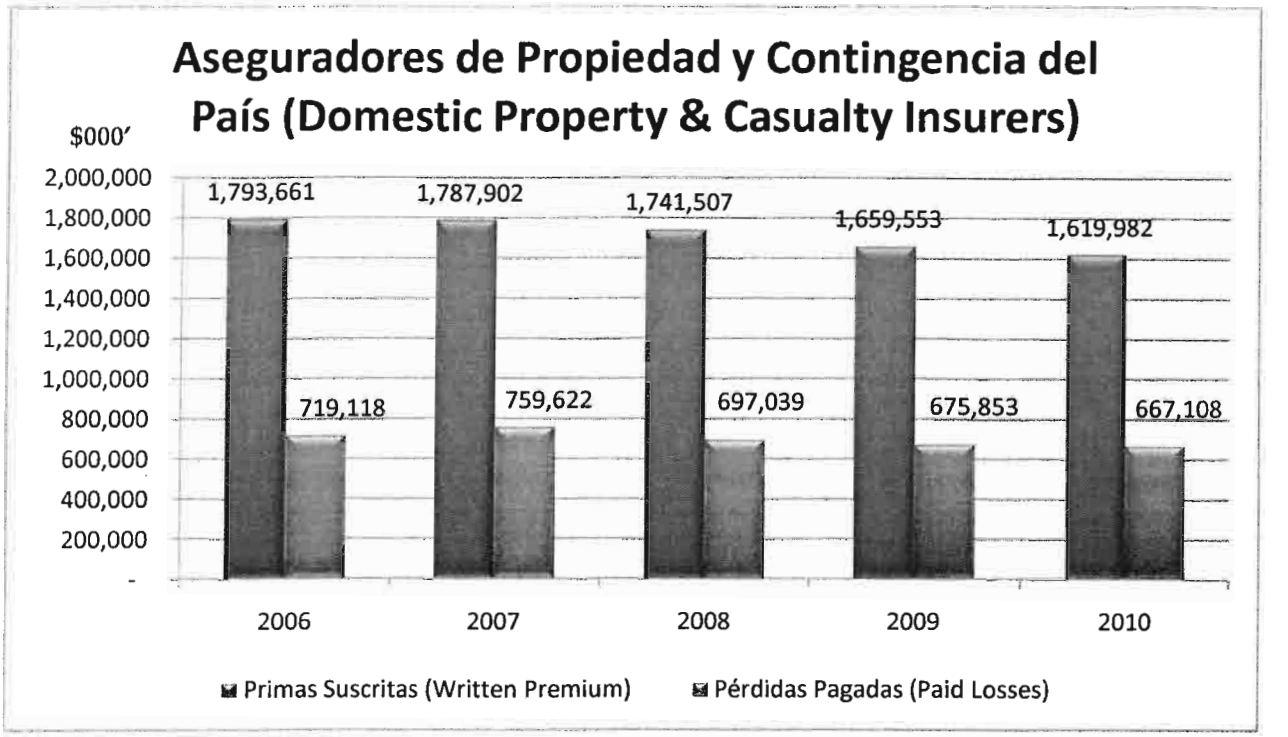
Es evidente la relación de los volúmenes de prima de esta línea de negocios con los desafíos que supone la economía en recesión que experimentamos desde el 2004 en Puerto Rico. Esto se ve claramente a partir del 2007 en que el volumen de primas suscritas fue de $2.1 millardos[2] y su contracción a $1.8 millardos en el 2010.

En las próximas graficas incluimos un detalle de las primas ganadas, las pérdidas incurridas y los gastos de ajustes de pérdida en el 2010 para los aseguradores del país.



[2] Miles de millones.

Para resumir la actividad de los aseguradores del país, integramos las primas suscritas y las pérdidas pagadas en la siguiente gráfica:



En la medida que se desarrolla una plataforma sólida de aseguradores de propiedad y contingencia local, se arraiga una base de capital local que permite el desarrollo de la actividad de manejo de riesgos que a su vez tiene el efecto de nutrir otros proyectos empresariales que gravitan alrededor de la actividad de seguros.

Incluimos en la siguiente tabla un resumen de indicadores clave de desempeño del pasado quinquenio de los aseguradores del país en el sector de propiedad y contingencia:

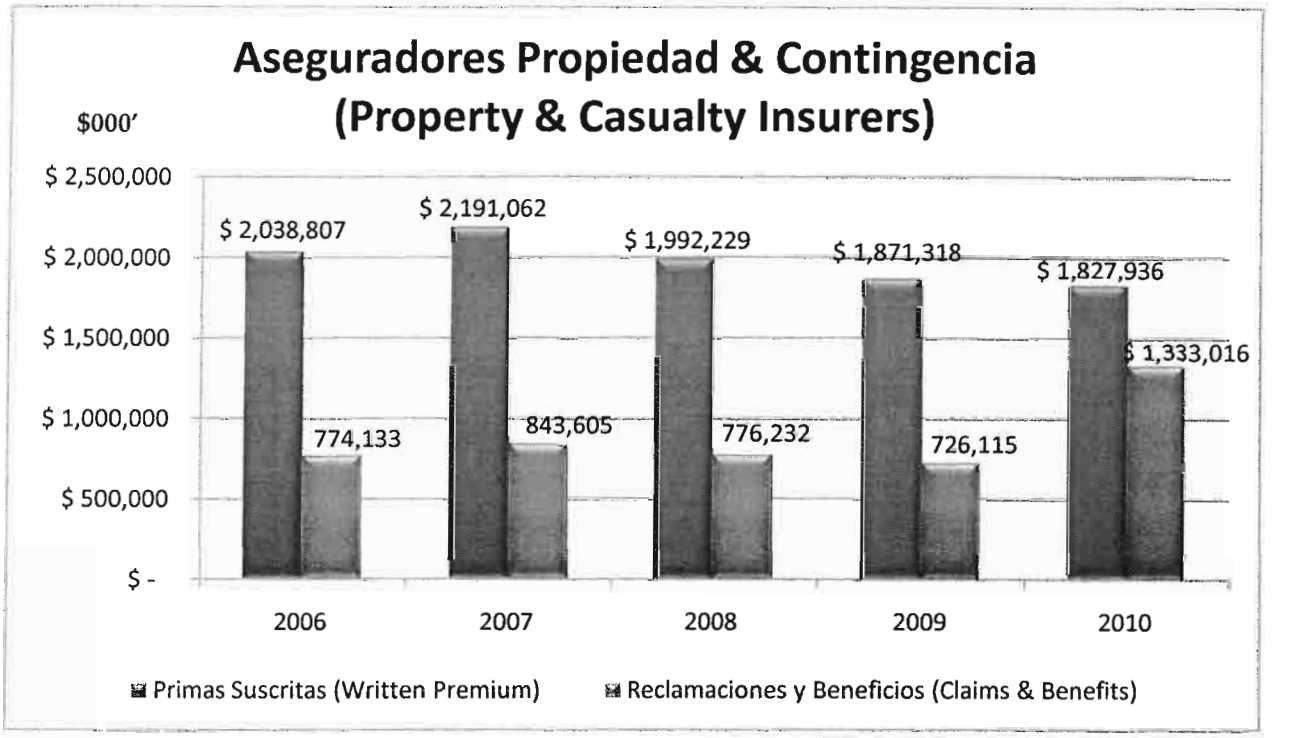
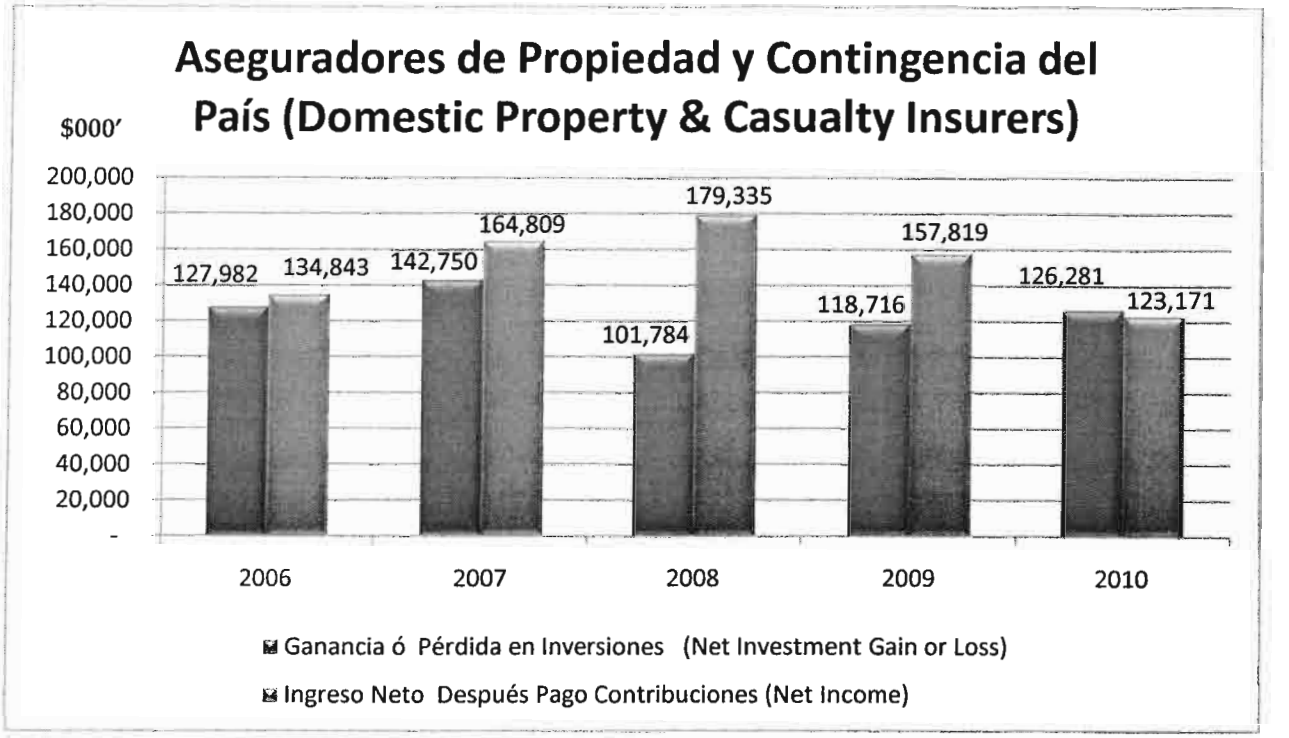
Incluimos un análisis comparativo de la actividad total de los aseguradores de propiedad y contingencia que hacen negocios en Puerto Rico, tanto en prima suscrita, como en reclamaciones y beneficios.



Finalmente, presentamos una gráfica que demuestra que la actividad de suscripción de riesgo de propiedad y contingencia se traduce en resultados positivos, que fortalecen toda la infraestructura de capital de las organizaciones del país. En la misma se presentan los resultados de la ganancia o pérdida en inversiones y el ingreso neto después del pago de contribuciones.

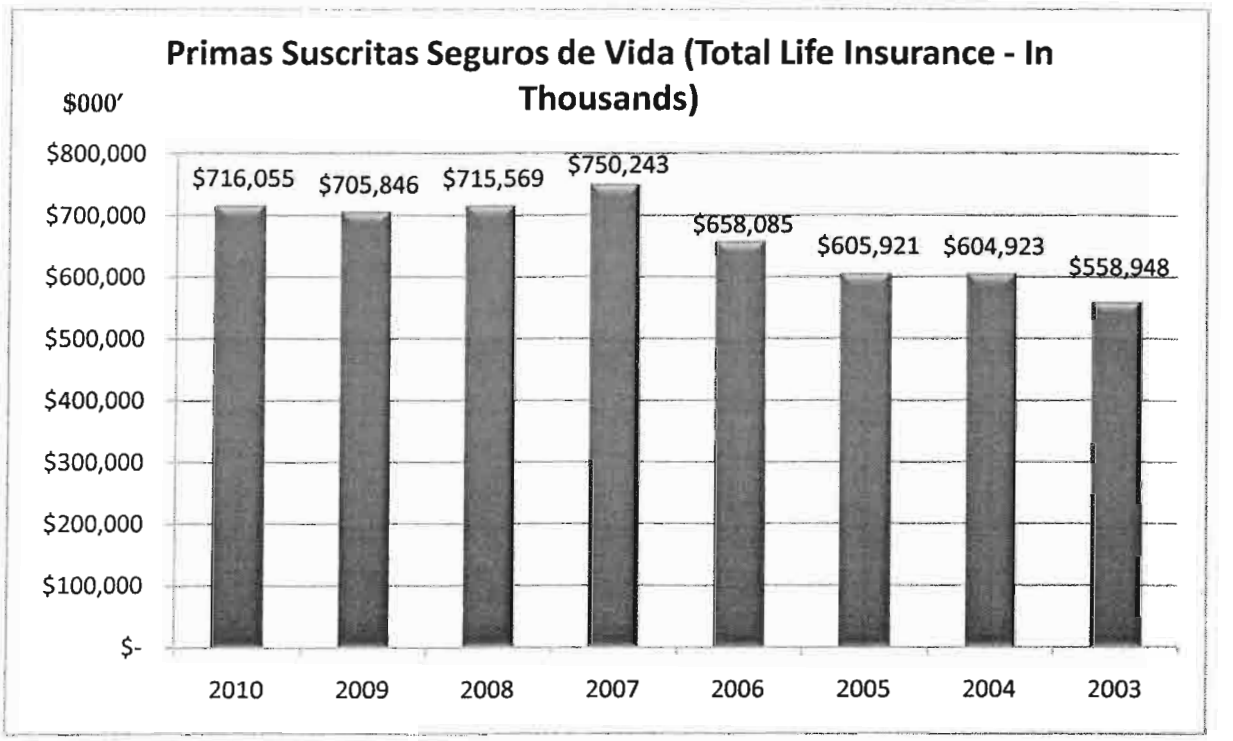


En la sección de anejos se incluirán tablas detalladas para documentar indicadores clave de desempeño del sector de propiedad y contingencia.

Vida e Incapacidad

Desde la perspectiva del negocio de vida e incapacidad contemplamos un marco de manejo de riesgos que permite el que tanto las instituciones como los individuos puedan desarrollar planes a largo plazo y a la misma vez manejar inteligentemente el riesgo de imprevistos que afecten dramáticamente la consecución de los mismos.

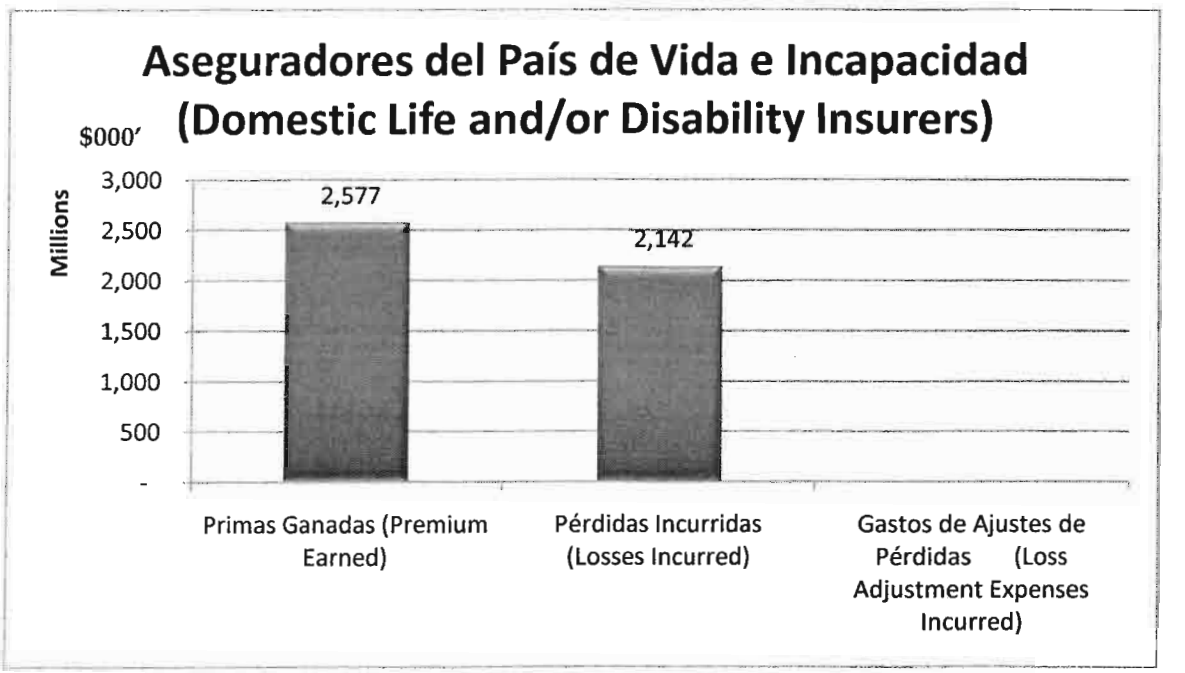
Podemos apreciar en la siguiente gráfica el comportamiento de la actividad de valor añadido de la línea de negocios de vida e incapacidad desde el 2003 hasta el 2010.

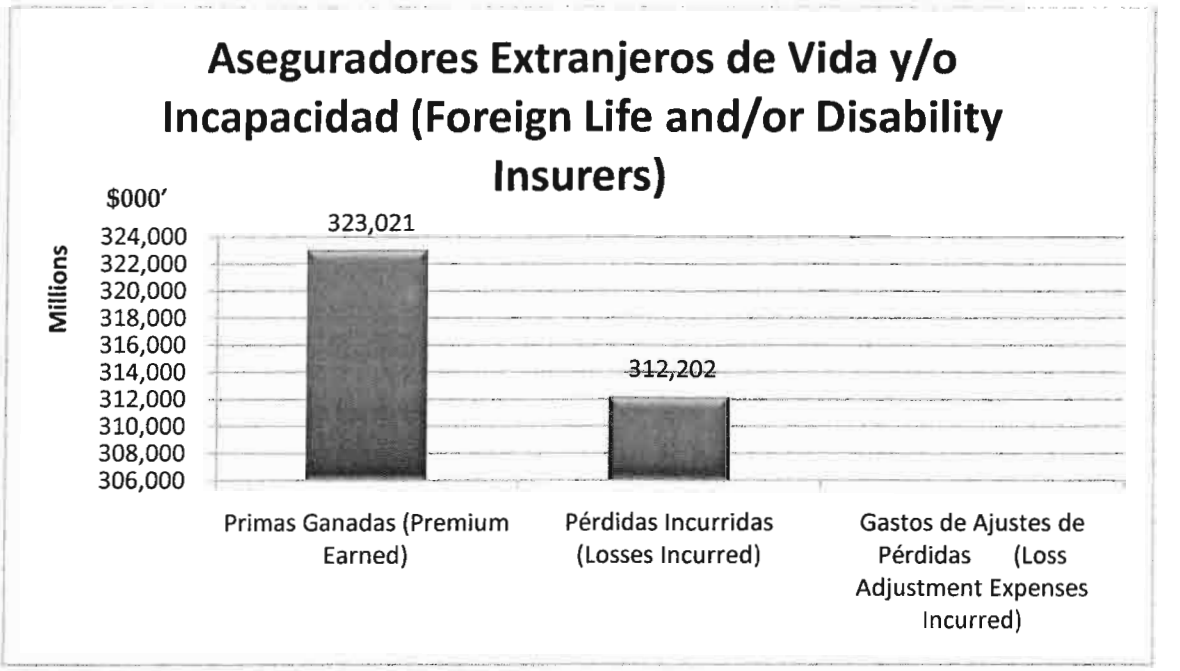


Hay que destacar el hecho de que en los últimos años ha ocurrido un nivelamiento del volumen en esta línea de negocios. Claro está, esto es el resultado del efecto del contexto socio-económico sobre los consumidores y asegurados en el País.

A partir de 2007 se experimenta el fenómeno de nivelamiento con $730 millones en prima total y termina en el 2010 con un total de $716 millones de dólares.

En las próximas gráficas incluimos un detalle de las primas ganadas, y los beneficios pagados en el 2010 para los aseguradores del país y los aseguradores extranjeros.





Hay que advertir que el liderazgo en la producción de la línea de seguros de vida la poseen los aseguradores extranjeros. La razón principal es que hay una serie de competidores globales, que generan economías de escala en su estructura de prima por millar, por el inmenso volumen de primas suscritas que emiten al año.

A pesar de esta realidad, es también menester advertir que los aseguradores locales han ido poco a poco cerrando la brecha con sus homólogos extranjeros.

A continuación, se incluyen algunas graficas que presentan el panorama agregado de esta importante línea de negocios:

Es evidente que se registra un incremento en la actividad de seguros de vida durante el periodo de tiempo representado. Por otro lado, se registra un efecto de nivelamiento y leve contracción en los seguros de incapacidad para los aseguradores locales para el mismo periodo.

Incluimos en la siguiente tabla un resumen de indicadores clave de desempeño del pasado quinquenio de los aseguradores del país en el sector de vida e incapacidad:

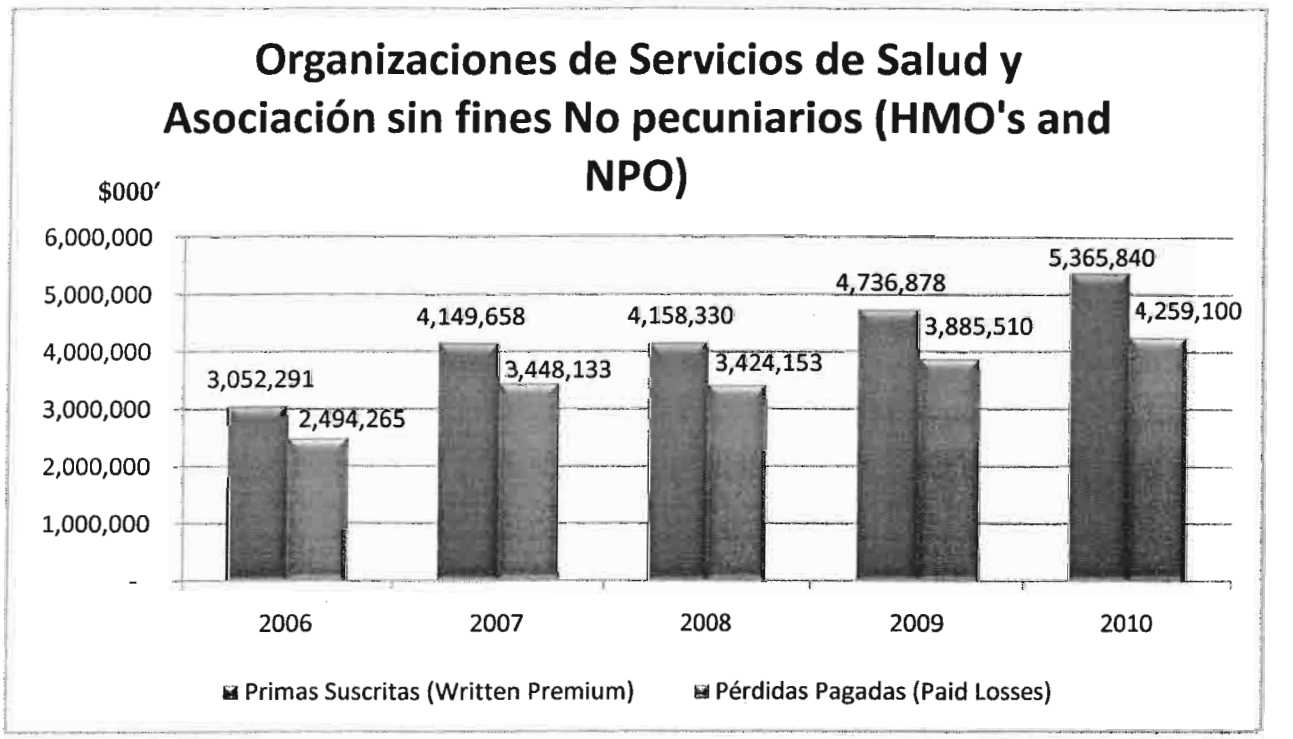
Salud

Las compañías que se dedican a la línea de seguros y servicios de salud, juegan un rol fundamental para los constituyentes de Puerto Rico, porque viabilizan el acceso a servicios de salud que promueven un estándar de vida adecuado.

En el siguiente análisis comparativo representamos el comportamiento de la prima suscrita y las pérdidas pagadas por las aseguradores de salud de país.



Además, se presentan los indicadores de primas ganadas, beneficios pagados para las organizaciones de servicios de salud, HMO's.

Nuestra Promesa de Garantías y Mejoras en el Servicio Público

Como parte de las gestiones que la Oficina del Comisionado de Seguros tiene en su amplitud de responsabilidades hemos desplegado una serie de iniciativas orientadas a innovar la dinámica de implantación de política pública de vanguardia.

Entre la plétora de actividades realizadas durante el pasado año queremos mencionar los siguientes proyectos, iniciativas e innovaciones que se concretizaron para beneficios del servicio al mercado, a los asegurados y el público en general.

A. Página de Internet - La página es vistosa, promueve el turismo en nuestra Isla y es completamente bilingüe. Dicha página que ahora es más estética y eficiente, ya que promueve la transparencia gubernamental. Por primera vez, se publica para beneficio del público los estados financieros anuales de los aseguradores. Además, el Informe Anual de nuestra Oficina es completamente gratis, distinto a los que en años anteriores fueron vendidos a la industria de seguros. Ahora, el Informe Anual se publica proveyendo información detallada para los regulados libre de costo.

B. Cambio Cultural Gubernamental - Por varios cuatrienios, en la Oficina enfatizó un enfoque estrictamente de fiscalizar la industria regulada. Bajo el enfoque de esta Administración se ha procurado potencial una Oficina más ágil y eficiente en la búsqueda de soluciones a problemas, así como un apoyo para el desarrollo y progreso de la industria y de la economía de Puerto Rico.

C. Economías y Optimización de la Estructura de Costos - La Oficina, en armonía con la política fiscal de esta Administración, ha logrado reducir enormemente el consumo de energía eléctrica, ha logrado negociaciones efectivas al momento del vencimiento de los contratos de alquiler de espacio y estacionamiento, provocando con ello unas economías que conllevarán que en este año fiscal, nuestra Oficina pueda continuar en fiel cumplimiento con los acuerdos alcanzados en el Convenio Colectivo firmado para los próximos tres (3) años fiscales. Además, se obtuvo una maximización de beneficios en la reducción de los costos de telefonía cambiando al proveedor del servicio, también con la cancelación de los contratos de celulares, y en la reducción del envío y solicitud de documentos al archivo central, lo que promueve se utilicen mejor los recursos de la oficina.

D. Programa de Internado Internacional de NAIC - La Oficina ha participado en el Programa de Internado Internacional de la Asociación Nacional de Comisionados de Seguros, por sus siglas en inglés NAIC, permitiendo con ello que países árabes, hindúes, y egipcios, participantes del Programa, se beneficiaran del conocimiento obtenido al haber palpado la forma y manera en que se regula una industria de seguros tan técnica y compleja como la nuestra.

E. Liquidaciones - Por primera vez se realizó una auditoría general a todas las liquidaciones existentes al momento comenzar el Comisionado de Seguros en sus funciones. Con ello tomó un rol más activo en la supervisión de las liquidaciones, que se ha mantenido hasta el presente.

F. Federal Reserve Board (MOU) - El Comisionado de Seguros firmó un Acuerdo de Entendimiento Mutuo con la Junta de Reserva Federal con el propósito de colaborar en la trasferencia de información, y en destacar recursos y esfuerzos para lograr la consecución de sus fines y propósitos, tales como supervisar adecuadamente a las entidades que controlan tanto a instituciones financieras como a los

aseguradores, según dispone la Sección 307 de la Ley Graham Leach-Bliley.

G. OCS Express - Fue el nombre seleccionado por el Comisionado de Seguros para distinguir la implantación de un Programa Piloto, dirigido exclusivamente a acelerar el trámite de la solicitud y entrega de las licencias de los regulados de nuestra Oficina. Dicho Programa fue un rotundo éxito desde su implantación, por lo que al presente dicho Programa constituye parte fundamental de los servicios que ofrece nuestra Oficina. Bajo dicho Programa se han entregado más de 6,663 licencias para el año 2010, exclusivamente.

H. Enmiendas al Código de Seguros de Puerto Rico - Durante el año 2010, nuestra Oficina consiguió la aprobación de enmiendas al Capítulo 9, el cual atiende exclusivamente los asuntos de las personas que ostentan licencias por parte de nuestra Oficina. Dichas enmiendas iban dirigidas a simplificar y uniformar procesos. Solamente como un extracto de las varias enmiendas, mencionamos las más significativas como: las renovaciones de las licencias no serían anuales como en el pasado, sino bianuales, o sea cada dos años. Con ello se facilitan las labores que realiza nuestra Oficina en la preparación de los documentos requeridos, se descarga de las

espaldas de los regulados el tener que conseguir varios documentos gubernamentales oficiales, y se adoptan y asemejan las mismas regulaciones que tienen los demás estados de Estados Unidos en cuanto a las renovaciones de licencias se refiere. Además, se redujo la edad de 21 años a 18 años para que las personas pudieran ser aspirantes a obtener licencias de seguros, lo que conlleva que los jóvenes puedan ver, como parte de sus aspiraciones, el dedicarse a una carrera tan provechosa como lo puede ser la industria de seguros. No conforme con todo lo anterior, también se permitió, por primera vez en la historia de Puerto Rico, que lo servidores públicos se dedicaran al negocio de seguros sin que ello constituyera o se considerara un conflicto de interés. Al presente, varios funcionarios públicos ya han comenzado el proceso en nuestra Oficina para la obtención de sus licencias de seguros.

I. Simplificación Regulatoria - Para la hacer la función de nuestra Oficina más ágil y la industria de seguros más eficiente, se derogó la Regla 40 sobre Programa de Líneas Múltiples. Además, se extendió una prórroga a la desregulación, por dos (2) años adicionales, de las pólizas comerciales. Se derogaron además, las Cartas Circulares

relacionadas al seguro de vida universal y se concedieron excepciones al Programa OPTINs.

J. Modificación del CIS - Debido a que el Código de Seguros solamente creaba la División de Aseguradores Internacionales, se cambió la nomenclatura al "Centro Internacional de Seguros", con el propósito de que la misma se denominara correctamente, por lo que comenzaría a llamarse "División de Aseguradores Internacionales".

K. Conducta de Mercado - Por lo necesario que constituía contar con una unidad dentro de nuestra Oficina que se dedicara exclusivamente a recoger adecuadamente todas aquellas prácticas que pudieran incidir o afectar a los asegurados o posibles asegurados, así como a otros competidores de seguros, fue necesaria la creación de la División de Conducta del Mercado.

L. Acreditación NAIC - El Comisionado de Seguros ha trabajado arduamente para lograr la acreditación de la NAIC. Para ello se hace imprescindible cumplir con varias facetas. Una de las facetas es realizar auditorías a los aseguradores multi-estatales en un tiempo predeterminado, y hacer los reportes conformes son requeridos por la NAIC. Para poder alcanzar el cumplimiento estricto con dicha fase, se determinó contratar con INS Ri, quienes es una compañía de

servicios múltiples, que se dedica principalmente a realizar informes de examen a aseguradores multi-estatales con el propósito de que los reguladores se mantengan al día en su acreditación con la NAIC. El Comisionado de Seguros reconoce que con la realización de estas funciones, a través de INS Ri, nuestra Oficina habrá dado un paso gigantesco de avance en la búsqueda y consecución de la acreditación de la NAIC. De igual manera, como segunda faseta, nuestra Oficina cuenta con toda la legislación necesaria para obtener la acreditación en cuanto a esta fase. Además, para el mes de septiembre de 2011, esperamos implantar tres (3) módulos del SBS (State Base System) por parte de la NAIC.

M. Autorización de Educación Continua a Distancia - Por primera vez, el Comisionado de Seguros autorizó el primer curso de Educación Continua a Distancia. Por alguna razón, aún a pesar de estar permitido y autorizado expresamente por la Regla 52, la Oficina del Comisionado de Seguros de Puerto Rico no había autorizado la celebración de cursos de Educación Continua a Distancia. Sin embargo, el Comisionado de Seguros se dio a la tarea de agilizar la aprobación de todos los cursos que ayudaran a los regulados de la

industria de seguros a mantener sus créditos al día, por lo que facilitó la obtención de crédito a distancia.

N. Licencia a Intermediarios de Reaseguro - Por primera vez, en nuestra Oficina se autorizó la expedición de licencias de intermediario de reaseguro, mediante la emisión de la Carta Normativa 2010-119-AP del 28 de diciembre de 2010.

O. Compensación a Agentes Generales - El día 7 de diciembre de 2010, se emitió la Carta Circular 2010 -117-SP, mediante la cual se conminó a los aseguradores a pagar a los agentes generales una compensación adecuada igual, equivalente o superior al 6.5% de los costos de adquisición. Ello con el propósito de ayudar a que este sector de los seguros quede debidamente representado y atendido.

P. Formulario para Estadísticas de Automóvil - Por primera vez se diseña un formulario para poder recolectar data suficiente y específica sobre reclamaciones de automóviles que permitan detectar el fraude. Mediante la Carta Normativa 2011-120-IA del 11 de enero de 2011, se cursó a todos los aseguradores autorizados a suscribir pólizas de automóvil que debían cumplimentar el mismo en un término razonable.

Estaremos enfocando nuestros esfuerzos para el próximo año en proyectos que fortalecerán nuestra infraestructura tecnológica, nuestra eficiencia de procesos internos y la capacidad de respuesta hacia todos nuestros constituyentes.

Entre las prioridades de la agenda del Comisionado de Seguros se encuentran estos dos (2) proyectos:

A. Página de Internet Interactiva - Es interés de nuestra Oficina el crear un portal cibernético interactivo donde los formularios de la OCS se puedan conseguir y cumplimentar en línea. Ello redundará en mayores beneficios para el público y nuestros regulados que solicitan nuestros servicios, ya que podrán agilizar y limitar el tiempo de búsqueda de información y de obtención de resultados.

B. Alcance Internacional - Se pretende mediante la consolidación de lazos con los Superintendentes de América Latina colocar a la OCS en un sitial de proyección internacional y asegurar niveles de ejecución a la par con los demás estados de Estados Unidos, sirviendo de enlace con estos últimos.

El Futuro de la industria de Seguros en Puerto Rico

Definitivamente, es un hecho que durante la pasada década en la industria de seguros mundial y en Puerto Rico se materializaron una serie de mega-tendencias que transformaron para siempre la fibra de las operaciones de seguros, las expectativas de los clientes y de los mercados de seguros en general.

Es por esta razón, que mirando hacia el horizonte tenemos que mencionar algunas de las fuerzas que sin lugar a dudas transformarán el entorno de la industria de seguros de Puerto Rico.

Entre las principales fuerzas enumeramos las siguientes:

1. El envejecimiento de la población – el crecimiento de una población envejecida tendrá un dramático efecto en la manera en cómo se administra la plataforma de servicios de salud y el manejo del riesgo a nivel social. Como cuestión de hecho, se registró un reducción de ochenta y dos mil (82k) vidas del año 2000 al año 2010[3], por ende por primera vez en la historia moderna de Puerto Rico su población se contrajo. Está

[3] Fuente: US Census 2010

documentado en múltiples investigaciones que sociedades en que la pirámide demográfica se invierte, el caso que Puerto Rico comienza a experimentar, se incrementan los costos asociados a los servicios de salud y mantenimiento de los estándares de vida que esta población requiere.

2. El advenimiento del manejo de riesgo científico – la integración de tecnologías analíticas autónomas suponen una nueva era en materia de los análisis cuantitativos que se requieren para determinar la adecuacidad de acometer riesgos en las diferentes líneas de negocios de la industria. Los modelos de perdida máxima, de utilización de servicios, de mortandad y severidad de enfermedades crónicas dentro de una población en particular serán fundamentales para fortalecer el proceso de toma de decisión de los líderes de las instituciones que participan día a día de la saga de los seguros en Puerto Rico.
3. Venta directa y modelos de negocios electrónicos en crecimiento – el desarrollo de modelos de venta que tocan al cliente-potencial asegurado de forma directa transformarán la manera en cómo se colocan los seguros en Puerto Rico. De la misma manera las compañías que integren dentro de su

amalgama de estrategias de ventas un componente en línea (Internet), podrán penetrar el mercado por medios no convencionales de distribución, de mercado, de fortalecimiento de la marca y del manejo de reclamaciones para agilizar la experiencia de los clientes-asegurados en todas las partes del proceso de añadir valor a los constituyentes.

4. La tecnología eficientiza el "back-end" de las operaciones de seguros – también es importante mencionar que la integración de tecnología en los procesos medulares de la industria, implican mejoras dramáticas en sus ciclos de procesos y en la capacidad de respuesta de la institución. Además, establece protocolos de control de procesos que reducen la variación y permiten que la experiencia de interacción con los diferentes constituyentes del mercado sea una de calidad y que cumpla con las expectativas que se tienen desde la primera vez.
5. En la medida que el mercado se contrae, se aceleraran las adquisiciones y las fusiones – uno de los fenómenos más interesantes del envejecimiento poblacional se verá en la esta próxima década que recién empieza. Esto será así, porque en la medida que la población envejece se comenzará a sentir una

erosión en la base de clientes individuales y comerciales de la industria de seguros. Esto a su vez tendrá el efecto de reducir las transacciones disponibles en el mercado, lo que afectará en alguna medida los volúmenes y los márgenes de las diferentes líneas de negocios. Está por verse como las instituciones de seguros harán frente a esta innegable realidad, que nos lleva a concluir que eventualmente, el menoscabo de clientes y de actividad transaccional tendrá un efecto en la viabilidad de algunas operaciones, lo que inducirá sin duda una consolidación dentro de la industria.

6. Se anticipa que el crecimiento del futuro se concentre en las líneas especializadas de seguros – como respuesta a la erosión de las líneas tradicionales de seguros como se comentó en el punto anterior, comienzan a emerger propuestas de valor que presentan productos de nichos o de alta especialización. Este tipo de línea especializada aunque todavía no representa un volumen considerable del mercado, si tienen márgenes y beneficios considerables para las compañías que los suscriben. Por esta razón, es importante ensanchar el peritaje especializado de la Oficina del

Comisionado de Seguros de Puerto Rico, de forma tal que se pueda realizar una gestión vigorosa y constructiva de dirigir el desarrollo de estos nichos de mercado de cara al futuro.

7. Incrementan los costos de servicios de salud para los individuos y las corporaciones – una tendencia que se ha estado experimentando durante la última década y que se proyecta para la próxima es el movimiento incremental de la estructura de costos de los servicios de salud. Es conocimiento general el hecho que los movimientos de inflación en la prestación de servicios de salud primario, en la compra de medicamento y en los servicios de salud médico-hospitalarios promedia un crecimiento de diez (10) a once (11) porciento
8. Están por materializarse los cambios inducidos por la reforma federal del cuidado de la salud legislada en el 2010 – estamos a la expectativa de ver el resultado concreto de esta pieza legislativa en la infraestructura de salud de Puerto Rico, el enfoque en la calidad de los servicios, los estándares de velocidad-respuesta a los pacientes y el enfoque en la optimización de la estructura de costos operacionales de las instituciones médico-hospitalarias, se deben traducir en

beneficios tanto de calidad de servicios como de estructura de costos para los pacientes-asegurados y las corporaciones que ofrecen planes de salud a sus empleados.

9. Se fortalece el centro internacional de seguros – la admirable gestión del Comisionado de Seguros, le ha impregnado nueva vitalidad al Centro Internacional de Seguros, se espera que durante esta década se materialice el beneficio concreto de este fundamental componente de la industria. En gran medida la expectativa que se tiene con el Centro es que se acelere la entrada de más instituciones que provean opciones adicionales al mercado local e internacional de seguros, incluyendo la investigación el desarrollo de nuevas propuestas de valor y productos que se puedan exportar a todos los confines del globo.

Todas esta fuerzas de cambio, sin duda empujaran los modelos mentales, los convencionalismos, las prácticas de negocios y la manera en cómo se organiza nuestra amada industria de seguros. Sabemos que ante todas estas fuerzas del cambio, emergerán nuevas ideas, nuevos acercamientos y nuevos productos que transformarán las respuestas de la

industria a las nuevas necesidades y los cambios de expectativas de nuestros constituyentes principales.

Estamos confiados que el futuro de la industria de seguros es uno brillante y de muchas oportunidades para el desarrollo de nuestro querido país. Además, reconocemos la sofisticación de los profesionales del patio, que con su esfuerzo heroico responden al llamado de servir a sus conciudadanos y de fortalecer la fibra socio económica de Puerto Rico.
