To: The Members of the Board of Directors of  
Puerto Rico Public Private Partnerships Authority

We have audited the accompanying financial statements of Puerto Rico Public-Private Partnerships Authority, a Component Unit of the Commonwealth of Puerto Rico, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the entity's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Puerto Rico Public-Private Partnerships Authority as of June 30, 2013, and the changes in financial position and its cash flows for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

## Other Matters

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 3 through 9 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's response to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **MANAGEMENT'S DISCUSSION AND ANALYSIS AS OF AND DURING THE YEAR ENDED JUNE 30, 2013**

---

This section presents a narrative overview and analysis of the financial performance of the Puerto Rico Public Private Partnerships Authority (the "Authority") and is designed to assist the reader in focusing on significant financial issues, provide an overview of the Authority's financial activity, and identify individual issues or concerns. The information presented here should be read in conjunction with the basic financial statements, including the notes thereto.

#### **1. FINANCIAL HIGHLIGHTS**

- Total assets and total liabilities of the Authority at June 30, 2013, amounted to approximately \$4.7 million and \$1.3 million, respectively, for a net position of approximately \$3.4 million. Total liabilities decreased by approximately \$7.2 million when compared to prior year due to repayment of the revolving line of credit to the Government Development Bank for Puerto Rico (the "Bank") of approximately \$6.1 million and a decrease in accrued expenses of approximately \$1.1 million.
- The Authority earned approximately \$19.6 million in revenue during the year ended June 30, 2013. This amount includes approximately \$14.4 million in reimbursement of expenses and approximately \$2.5 million as professional fees for the services provided as part of the Luis Muñoz Marín Airport Public Private Partnership. These amounts are presented as Service Charges in the accompanying statement of revenues, expenses, and changes in net position.
- The Authority's revenues from the Local Stimulus Fund ("*Plan de Estímulo Criollo*" or "*PEC*" by its Spanish acronym) pursuant to Executive Order No. 5 of 2010 amounted to approximately \$2.7 million for the year ended June 30, 2013.
- The Authority's professional services expense amounted to approximately \$5.7 million for the year ended June 30, 2013.
- During the year ended June 30, 2013, the Authority's operations were financed with a \$20 million revolving line of credit facility with the Bank, as established by the Public Private Partnerships Act 29 of June 8, 2009, which created the Authority. For upcoming years management will finance the Authority's operations with fees charged upon the establishment of public-private partnerships (the Partnerships).

#### **2. OVERVIEW OF THE FINANCIAL STATEMENTS**

This report includes this management's discussion and analysis section, the independent auditors' report and the basic financial statements of the Authority. The financial statements also include notes that explain in more detail information pertinent to the financial statements.

**3. REQUIRED FINANCIAL STATEMENTS**

The financial statements of the Authority report information using accounting methods similar to those used by private sector entities. The statement of net position includes all of the Authority's assets and liabilities and provides information about the nature and amounts of investment in resources (assets) and obligations to creditors (liabilities). It also provides the basis for evaluating the capital structure of the Authority and assessing its liquidity and financial flexibility.

Revenues and expenses are accounted for in the statement of revenues, expenses, and changes in net position. This statement measures the results of the Authority's operations over the past year and can be used to determine whether the Authority has successfully recovered its costs from the revenue it generates.

The final required financial statement is the statement of cash flows. This statement reports cash receipts, cash payments, and net changes in cash resulting from operating, investing, and capital and noncapital financing activities, and provides answers to such questions as where did cash come from, what was cash used for, and what was the change in the cash balance during the reporting period.

**AS OF AND DURING THE YEAR ENDED JUNE 30, 2013**

---

The Authority's most significant expenses correspond to professional services and payroll related expenses amounting to approximately \$5.6 million and \$597 thousands, respectively. Decrease in operating expenses of approximately \$9.3 million, when compared to prior year, is mainly related to a decrease in professional services of approximately \$8.5 million related to the Authority's Partnership projects.

The Authority's principal activities are related to the development of Partnership projects, completion of studies of desirability and convenience for proposed Partnerships, the identification and qualification of potential proponents and the evaluation, selection, negotiation and award of Partnership transactions.

The increase in assets is mainly related to the increase in cash of approximately \$3.6 million. The decrease in the liabilities is the result of the repayment of approximately \$6.1 million to the revolving line of credit facility. Operating revenues during the year ended June 30, 2013, include approximately \$2.7 million from the PEC and \$16.9 million from Service Charges.

**5. PUBLIC PRIVATE PARTNERSHIPS**

Under the same agreement, the Authority expects to provide financial support for the initial development efforts related to the extension of the highway PR-22. The extension of the existing PR-22 to the west between the municipalities of Hatillo and Aguadilla, is a large scale project that requires significant pre-development work. This agreement expired on December 31, 2012. The Authority foresees that the extension of the PR-22 will eventually be delivered as a Partnership project. The pre-development efforts are currently under the responsibility of the Puerto Rico Infrastructure Financing Authority ("PRIFA").

*Juvenile Detention and Treatment Facility*

By December 2012 the Authority had a shortlist of four (4) bidders. However, on April 8, 2013, the Secretary of Correction notifies the Authority that the Puerto Rico Department of Correction is not interested in continuing with the project. On August 13, 2013, the Board cancelled the project.

Specifically, the Authority collaborated and funded costs related to professional advisory services of two projects. The agreement with the professional advisory services expired on January 15, 2013. As of June 30, 2013, these projects are still pilot projects which have been not converted to Partnerships.

**1. REPORTING ENTITY**

The Puerto Rico Public Private Partnerships Authority (the “Authority”) is a component unit of the Commonwealth of Puerto Rico (the “Commonwealth”) and an affiliate of the Government Development Bank for Puerto Rico (the “Bank”), another component unit of the Commonwealth. The Authority was created by virtue of Act 29 of June 8, 2009 (the “Act 29”).

The Authority is the Commonwealth’s governmental entity authorized and responsible for implementing public policy on Public Private Partnerships (the “Partnerships”) are established by Act 29 and to determine the functions, services or facilities for which such Partnerships will be established.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accounting and reporting policies of the Authority conform to accounting principles generally accepted in the United States of America (“U.S. GAAP”) for governments as prescribed by the Governmental Accounting Standards Board (“GASB”).

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net position, and revenues and expenses during the reporting period. Actual results could differ from those estimates.

Following is a description of the Authority’s most significant accounting policies:

*Measurement Focus and Basis of Accounting*— The financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Expenses are recorded when incurred, regardless of the timing of related cash flows. Operating revenues and expenses are distinguished from nonoperating items.

The Authority’s operating revenues is primarily derived from fees earned from contractual agreements with other government entities, as defined in Act 29, to implement public policy and to determine the functions, services or facilities for which the Partnerships are established. The Authority recognizes revenue when earned under the terms of each agreement and when the collection of the fees is reasonably assured. Operating expenses are those related to the administration of the Authority. All revenues and expenses not meeting these criteria are reported as nonoperating revenues and expenses.

**NOTES TO BASIC FINANCIAL STATEMENTS**  
**AS OF AND DURING THE YEAR ENDED JUNE 30, 2013**

The statement of net position presents the Authority's assets and liabilities, with the difference reported as net position. Net positions may be reported in three categories:

- Net investment in capital assets – consists of capital assets, net of accumulated depreciation and amortization and reduced by outstanding debt balances attributable to the acquisition, construction, or improvement of those assets.
- Restricted component – consists of restricted assets reduced by liabilities related to those assets. Restrictions are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.
- Unrestricted component – consists of net amount of the assets and liabilities that do not meet the definition of the preceding category. Unrestricted component of net position often is designated, in order to indicate that management does not consider them to be available for general operations. Unrestricted component of net position often has constraints on use that are imposed by management, but such constraints may be removed or modified.

As of June 30, 2013, the Authority's net position was presented as net investment in capital assets and unrestricted.

The statement of activities demonstrates the degree to which the operating expenses are offset by operating revenues.

*Custodial Credit Risk Related to Deposits* — Custodial credit risk is the risk that in the event of a financial institution failure, the Authority's deposits may not be returned to it. The Authority does not have a policy for custodial credit risk. As of June 30, 2013, all of the Authority's bank balance, aggregating to approximately \$4 million, was exposed to custodial credit risk since all such deposits, which are maintained at the Bank, are uninsured and uncollateralized.

*Capital Assets* — Capital assets, which consist of equipment, are stated at cost less accumulated depreciation. Capital assets are defined by the Authority as assets that have a cost of \$500 or more at the date of acquisition and have an expected useful life of one or more years. Depreciation is charged to operations and included in general and administrative expenses, and is computed on the straight-line basis over the estimated useful lives of the depreciable assets (1 to 5 years). Costs of maintenance and repairs, which do not improve or extend the life of the respective assets, are charged to expense as incurred.

*Compensated Absences* — The employees of the Authority are granted 30 days of vacation and 18 days of sick leave annually. Vacation and sick leave may be accumulated up to a maximum of 72 and 90 days, respectively. In the event of employee resignation, an employee is reimbursed for accumulated vacation and sick leave days up to the maximum allowed.
