Presented by Mr. *Ríos Santiago*

RESOLUTION

To present a well deserved recognition from the Senate of Puerto Rico to the National Science Foundation (NSF) for providing their support in the upcoming celebration of the International Conference on alternative Energy (ICAE), to take place at the Puerto Rico Sheraton Hotel and Casino, on October 3 and 4 of 2011.

EXPOSITION OF MOTIVES

The National Science Foundation (NSF) is a United States government agency that supports fundamental research and education in all the non-medical fields of science and engineering. Its functions are to initiate and support basic scientific research and programs to strengthen scientific research potential and science education programs at all levels in the mathematical, physical, medical, biological, social, and other sciences, and to initiate and support research fundamental to the engineering process and programs to strengthen engineering research potential and engineering education programs at all levels in the various fields of engineering and to appraise the impact of research upon industrial development and upon the general welfare.

The Senate of Puerto Rico finds that the fundamental research and related education program supported by the Federal Government and conducted by the Nation's universities and colleges are essential to our national security, our health, and our economic welfare and general well-being. In this effort the National Science Foundation (NSF) have played an important role

in providing and conducting high quality research and education programs to maintain our Nation at a competitive position of modern science, engineering, and technology.

It is an honor for the Senate of Puerto Rico to give recognition to the National Science Foundation (NSF) for their continued efforts in servicing our country.
